Better Breathing

A workshop with Brenda Stickley

The Workshop

This 4-hour workshop is for anyone who would like to understand more about the act of breathing - both theory and practice. Better breathing produces higher levels of energy and creativity, improved sports performance, reduces stress and improves pain and general management of many health conditions. Experience for yourself the positive effect better breathing can make. Helpful for asthmatics, and anxious and shallow breathers.

Easy to follow take-home notes will help you remember everything you learn at this workshop. Wear comfortable clothes.
